

**The National Renewable Energy Laboratory**

**in partnership with the U.S. DOE**

**invite**

**EPAct-mandated and voluntary fleets seeking alternative fuel solutions**

to a *FREE*

**one-day educational forum:**

***Fueling Your Alternative Fuel Vehicle Fleet:  
Partnering EPAct Mandated Fleets and Clean Cities Stakeholders  
to Deploy Alternative Fuels***

***9:00 - 9:30 a.m. registration***

***3:30 p.m. Conclusion***

**September 13, 2011**

**Department of Environmental Protection**

**Southeast Regional Office**

**2 E. Main Street, Norristown, PA 19401**

**In Cooperation with the:**

This **FREE**, one-day workshop provides a forum for EPAct-mandated and voluntary fleets to exchange information with other like-minded fleets and overcome barriers to alternative fuel deployment. We'll share detailed regional maps and web-tools that can help fleets identify potential fueling partnership opportunities, increasing alternative fuel vehicle use and alternative fueling infrastructure.

Across the nation, similar workshops have fostered alternative fuel deployment partnerships, assisted fleets with EPAct compliance, and provided the tools, data, and contacts fleets need to make informed decisions.

**Previous Fleet Participant Reviews:**

- ◆ "Great event! I will recommend it to my peers."
- ◆ "Excellent overview of alternative fuels; presenters were very knowledgeable in all areas."
- ◆ "Online mapping tools will be a great resource to our fleet in deploying AFVs."
- ◆ "I now have the tools and contacts necessary to deploy alternative fuels in our fleet."
